

# Threat Management Platform

Component: Management Dashboard

# CYBOT MANAGEMENT DASHBOARD

- ✓ Eliminate the tedious process of requesting dashboards and reports from various teams to keep up with your organization's cybersecurity status and to present to senior management. We found the perfect solution in CYBOT's built-in Management Dashboards.
- ✓ This component now provides customers with an intuitive, real-time, and comprehensive view of your organization's cybersecurity landscape. The Management Dashboard offers insights into alerts and threats triggered by each security solution, along with detailed views of inbound and outbound traffic, complete with location maps. It also provides overviews of email and file activities, Active Directory events, user and host activities, and much more.
- ✓ The capabilities are virtually limitless, and we can tailor the dashboard to meet any specific requirements. With CYBOT's Management Dashboard, you can make swift, well-informed decisions like never before, all while maintaining a high-level perspective of our organization's security posture. This feature has significantly streamlined our cybersecurity monitoring and reporting processes, enabling you to respond proactively and effectively.
